

CITY OF SAN DIEGO WASTE MANAGEMENT NOISE VARIANCE DOWNTOWN SAN DIEGO

Authority:

The San Diego Municipal Code 59.5.0203 (Issuance of Permits or Variances by Administrator) authorizes the City Manager to alter the hours of waste collection within the City of San Diego that are specified in Section 59.5.0406 (Refuse Vehicles and Parking Lot Sweepers).

VARIANCE:

A (1) one year variance authorizing adjusted hours of operation for the collection of refuse in the designated downtown areas has been granted. These hours of operation will apply to the franchised haulers that provide collection services within the City of San Diego. The variance is effective October 15, 2003. The intent and purpose of this variance is to adjust the hours of commercial refuse collection in downtown San Diego to better serve the unique refuse collection needs of the downtown business and residential communities.

This variance is consistent with the existing City of San Diego Waste Management Regulations and Solid Waste Collection Services Standards, Guidelines, and Procedures as documented in Article 5 of the current Non-Exclusive Solid Waste Collection Franchise Agreements.

Conditions:

The following conditions for implementation and administration of the variance are hereby established.
